

One Post-Doctoral position in **Medical Robotics** and One Post-Doctoral position in **MEMS** is available immediately at the Georgia Institute of Technology in the Wallace H. Coulter Department of Biomedical Engineering. Representative projects in these areas include image-guided surgical robotics in the areas of neurosurgery and cardiothoracic surgery, robot-assisted endovascular interventions, micro-scale cell and tissue characterization, and cancer diagnosis at the micro-scale.

Candidates must have strong expertise in either of the following areas to apply:

- 1) ROBOTICS
- 2) MEMS

Application package:

Interested candidates should submit the following by email in a single PDF file to jaydev@gatech.edu

1. Curriculum vitae with a list of at least 3 references
2. A one-page summary of research background and interests
3. At least three papers which could be either published, accepted for publication, or in-preparation, which demonstrates expertise in the areas mentioned above
4. Relevant courses taken during Ph.D. studies
5. Doctoral dissertation topic and the expected date of graduation (for those who are currently pursuing a Ph.D.)

Georgia Tech is an Affirmative Action/Equal Opportunity Employer.
