

## GAANN: DOCTORAL RESEARCH AND TRAINING IN MECHATRONICS

The Missouri University of Science and Technology (Missouri S&T) is recruiting highly-motivated doctoral students in mechanical and aerospace engineering to become part of a team researching the latest science and technology in mechatronics. Projects include additive manufacturing, alternative energy systems, coordinated robotics, and space systems.

### ELIGIBILITY FOR A GAANN FELLOWSHIP

Must be a U.S. citizen or a permanent resident of the United States.

Applicants must be accepted into either the regular or direct (i.e., straight from BS) doctoral mechanical or aerospace engineering program at Missouri S&T.

Strong GPA and GRE scores, and having a strong desire to conduct research.

### GAANN FELLOWSHIP BENEFITS

Receive a yearly stipend of up to \$34,000 (based on demonstrated financial need).

A full tuition waiver and resources to conduct their research, attend technical conferences, etc.

Conduct cutting edge research with leading faculty in the field.

### APPLICATION PROCESS

Apply to the Missouri S&T mechanical engineering or the aerospace engineering doctoral programs at [futurestudents.mst.edu](http://futurestudents.mst.edu)

Email the program directors with the following information:

- ❑ Name
- ❑ Email address
- ❑ Unofficial transcripts
- ❑ Resume
- ❑ One page statement of how a doctoral degree will fit into your future plans.

*Underrepresented students are especially encouraged to apply.*
