Committee Assessment Survey (CAS) Form
Manufacturing Engineering Program
(Please return this form to Jill Sertell, 292A Toomey Hall)

Name of Candidate: ________________________________

Committee member: ______________________________

1. Did the candidate do well in his/her thesis defense or project?
   Strongly agree____   Agree____   Neutral____   Disagree____   Strongly Disagree____   N/A____

   Based on your assessment, please briefly check the following:

2. The student seems to be engaged with the interdisciplinary knowledge domain of advanced manufacturing science and engineering in the following areas:
   1) Materials and Manufacturing Processes;
   2) Process, Assembly and Product Engineering;
   3) Manufacturing Competitiveness; and
   4) Manufacturing Systems Design.
   Strongly agree____   Agree____   Neutral____   Disagree____   Strongly Disagree____   N/A____

3. The student seems to have experienced in solving open-ended design and manufacturing problems through an industrial relevant project or a research thesis.
   Strongly agree____   Agree____   Neutral____   Disagree____   Strongly Disagree____   N/A____

4. The student seems to have the opportunity to develop team work, advanced communication, and computer skills.
   Strongly agree____   Agree____   Neutral____   Disagree____   Strongly Disagree____   N/A____

5. The student seems to have the exposure of environment, such as distance education, to have the opportunity to grow intellectually and personally and foster lifelong learning in light of increasing global and multicultural work environment.
   Strongly agree____   Agree____   Neutral____   Disagree____   Strongly Disagree____   N/A____
