

NSF RESEARCH EXPERIENCE FOR UNDERGRADUATES MULTI-PHYSICS OF ACTIVE SYSTEMS AND STRUCTURES

The REU program provides undergraduate students in mechanical engineering and related fields an opportunity to participate in ongoing research programs through an integrated learning process including individualized projects, group design experience, field trips and other professional development activities. We strongly encourage students from underrepresented groups to apply.

Summer Activities

- Individualized Research Projects
- Group Activities
- Professional Development Sessions
- Social and Outreach Activities
- Tours of Research Labs and Local Industry
- Open House Oral and Poster Presentations

Research Topics

- Micro Air Vehicle
- Multi-modal Robots
- Autonomous Motion Control
- Smart Materials
- Active Flow Control
- Aerodynamics
- Aeroacoustics
- Sensors and Actuators
- Computational Physics

Important Dates
February 10: Application deadline.
March 3: Acceptance notifications

Program duration: June 5—August 11, 2017

10-week program: \$4,800 stipend for all participants. External Participants will be provided living accommodation and travel assistance with the total package exceeding \$7,000

Mailing: REU-MASS Summer Program, Aero-propulsion, Mechatronics and Energy Center

Room 104, 2003 Levy Ave., Tallahassee, FL 32310; **Email:** shih@eng.fsu.edu; (850) 645-0102
