The School of Mechanical, Industrial, and Manufacturing Engineering at Oregon State University (OSU) invites applications for multiple tenure-track faculty positions in either the School’s Mechanical Engineering or Industrial and Manufacturing Engineering programs. Applicants must hold a doctorate in a relevant field. The successful candidates are expected to initiate new funded research as well as expand, complement, and collaborate with existing research programs in the School and the College of Engineering and beyond.

The School has existing research threads in robotics, advanced manufacturing, next-generation materials, renewable energy systems and humanitarian engineering that cut across its disciplines of industrial, energy systems, manufacturing and mechanical engineering and the graduate program in materials science. Preference will be given to candidates with strong research interests in the above research threads and teaching ability in the disciplines of the school. Additionally, there is a specific call for a faculty member with disciplinary expertise in mechanical and/or industrial design and research interests that align with the research threads.

Faculty collaboration opportunities include, but are not limited to, ONAMI (Oregon Nanoscience and Microtechnologies Institute), Oregon BEST (Built Environment & Sustainable Technologies Center), MBI (Microproducts Breakthrough Institute), NNMREC (Northwest National Marine Renewable Energy Center), OMI (Oregon Metals Initiative) and others.

Exceptionally strong candidates at all levels (Assistant, Associate, Full) are encouraged to apply. Applicants should demonstrate a strong commitment to collaboration within the School, University, and abroad.

Oregon State University has a strong institutional commitment to the principle of diversity. The College of Engineering ranks high nationally in terms of the percentage of female faculty. The University has an institution-wide commitment to diversity and multiculturalism, and provides a welcoming atmosphere with unique professional opportunities for leaders from underrepresented groups.

Oregon State University is located in Corvallis, OR with approximately 26,000 students enrolled. The College of Engineering is the largest college with over 6,000 students. Within the School of MIME, there are 1800 students across the industrial, energy systems, manufacturing and mechanical engineering programs.

Please check for the full position announcements at http://mime.oregonstate.edu/faculty-staff/jobs. You may apply online with a letter of interest; vita; a two-page statement of research interests; a one-page statement of teaching interests; and names and contact information for four references.

For questions regarding submission of your application package, please contact Search Chair Dr. David Cann (david.cann@oregonstate.edu) or School Head Rob Stone (rob.stone@oregonstate.edu) at the School of Mechanical, Industrial, and Manufacturing Engineering, 204, Rogers Hall, Corvallis, OR 97331.
